

Journal of the Indonesian Chemical Society (J. Idn. Chem. Soc. or **JICS**) as a flagship international e-journal of Indonesian Chemical Society (ICS) or Himpunan Kimia Indonesia (HKI) with a DOI number of 10.34311/jics has proudly published online the Volume 03, Issue 2 on 31 August 2020. Moreover, JICS has used a new journal logo as a header and a footer in each article, front cover and all required documents in the editorial. In header, JICS has also used Section for respective chemistry field such as Organic, Inorganic, Physical, Analytical or Biological Chemistry.

In this issue, JICS has published the fourth times of its electronic version consisting of **6 articles** that are **1 Mini Review** and **5 Full Paper**. It has involved **23 authors** with affiliation from **5 countries** such as **Indonesia, Japan, Thailand, Nigeria, and Russia**. They are **10 Editors** and **11 Reviewers** with high track-record publications in reputable journals for the double-blind peer-review process. In particular, JICS would like to thank to Dr. Ambara R. Pradipta and Prof. Dr. Katsunori Tanaka from Tokyo Institute of Technology, Japan for the contribution of **Mini Review** in **Section for Organic Chemistry** entitled “*Methods for Acrolein Detection: Recent Advances and Applications*”. This article has been also selected for the front cover.

With this fourth volume and second issue, JICS would like to thank to all Authors, Reviewers and Editors for their contribution in all steps of the peer-review process. It is expected that JICS will again contribute to the advancement of chemical sciences in Indonesia and in the region. JICS would like to welcome again for the submission of manuscript that will be published online for the next issue on December 2020.

Malang, 31 August 2020
