

TABLE OF CONTENT

Editorial	i
Submission information	iii
Table of Contents	iv
Article 1. Investigation of Voltammetric Reduction Profile of N₂O on Platinum Working Electrode (Siswoyo, Harum S. Andini, and Dwi Indarti)	1-4
Article 2. Distribution of Chlorophylls and Carotenoids in the Different Parts of Thallus Structure from Three <i>Sargassum</i> spp. as Revealed by Multi-Chromatograms HPLC Approach (Renny Indrawati, Heriyanto, Tatas H. P. Brotosudarmo, and Leenawaty Limantara)	5-9
Article 3. Isolation and Characterization of <i>fim-C S. typhi</i> Gene 0.8 Kilobase as a Preliminary Study to Discover a Candidate of Recombinant Vaccine for Typhoid Fever (Muktiningsih Nurjayadi, Irma Ratna Kartika, Fera Kurniadewi, M.S. Dwi Destiana and Sinta Nurhidayati)	10-16
Article 4. The Chemical Constituents of Tenggulun (<i>Protium javanicum</i>, Burm, F) Leaf (Ni Made Puspawati, R.H. Prager, and M.V. Perkin)	17-22
Article 5. Anticancer Activity of <i>Curcuma zedoaria</i> (Berg.) Roscoe Essential Oils Against Myeloma Cells (Wiwik Susanah Rita, I Made Dira Swantara, and Ni Luh Sugiantini)	23-28
Article 6. The Synthesis and Characterization of Acetamide Compounds from α-pinene and Acetonitrile through Ritter Reaction (Zahra Ramadhany Hidayat, Mohammad Farid Rahman)	29-34
Article 7. Preparation of Colloidal Ag Nanoparticles Using the Biologically Compatible Polymers and Reducing Agents (Roto and Dita Floresyona)	35-38
Article 8. Preliminary Study of the Potential of <i>Phanerochaete chrysosporium</i> Immobilized in Agar for Degradation of Sugarcane Bagasse (Rosita Yusnidar, Evi Susanti, and Subandi)	39-42
